

Tivetshall Parish Council

Clerks Report

I have been working through the spreadsheet that our Locum Clerk produced and can say that I have now finished reporting the issues that Julie logged and also followed up some issues such as the Tinkers Lane and Star Lane signs have been sited.

As a clerk I have never been involved in the workings of a neighbourhood plan and it was great to watch the group at the recent Tea Junction show their presentation and thanks to new councillors David and Sandra for their help on the day especially with the early start. Also we as a parish council cannot thank Rachel Leggett and her team as well as the Neighbourhood Plan team led by Councillor Alyson Read for their amazing work in producing this great document, especially the hours of proof reading that was done.

At the recent Tea Junction during the Neighbourhood Plan presentation too it was great to chat with parishioners on their worries around future development in the parish and to actually show them what I as the clerk do on behalf of the council and that they are welcome to bring any issues to me at the Tea Junction and they can watch me report the worries and also see the process I go through when doing it.

I have also arranged that we get two new signatories on the bank account and thank Julie and Sandra for their help on this along with the great assistance from Unity Bank for getting this done quickly and are just a joy to deal with. I am also now the main contact for the council with the bank which really helps.
